Overport Primary School
INTERNET USAGE
POLICY

Rationale:
• The internet provides students with unprecedented opportunities to obtain information, engage in
discussion, and liaise with individuals, organisation and groups world-wide so as to increase skills,
knowledge and abilities.

Aims:
• To improve student learning outcomes by increasing access to worldwide information.
• To develop skills in discriminate and appropriate internet usage.

Implementation:
• Our school actively supports access by students to the widest variety of information resources
available, accompanied by the development of the skills necessary to filter, analyse, interpret and
evaluate information encountered.
• All students and staff at our school will have censorship filtered internet and email access. All
students and staff will have their own password protected internet account and log on. Such access is
a privilege that infers responsibility, and not simply a right to be expected.
• An internet coordinator will be appointed, who will liaise with staff and the technical support
technician to manage all email access, maintenance of the school’s web site, web filters, and all other
issues related to internet access by students.
• The school undertakes to ensure that information published on the Internet by students or the school
is of a high standard, and meets legal requirements and standards of general practice within the
community in relation to copyright, safety and decency.
• Students email access will be through a class mailbox under teacher supervision.
• All email accounts will be password protected and users will be responsible for clearing their
mailboxes regularly.
• Guidelines on access rights will be defined for different user levels. Restricted access shall be
available to guest users for specific purposes only.
• All students shall be responsible for notifying their teacher of any inappropriate material so that
access can be blocked.
• All staff shall be responsible for notifying the coordinator of any inappropriate material so that access
can be blocked.
• Consequences of publishing, accessing or failing to notify the coordinator of inappropriate material
shall include the removal of access rights.
• Signed parent and student consent is required to be completed in order to gain access to the internet,
or to publish work, photos or videos on the internet.
• Privacy of students, parents, staff and other users must be recognised and respected at all times.
When identifying students, only the student’s first name and last initial will be used.
• Teachers shall be responsible for making sure all work is screened for accuracy, appropriateness,
grammar, spelling prior to publishing.
• Costs associated with personal internet usage will be borne by students.
• This policy should be read in conjunction with Anti-harassment policy to address Cyber bullying.

Evaluation:
• This policy will be reviewed annually as part of the school’s regular review cycle.

This policy was last ratified by School Council in....

June 2014
